

Health & Safety Policy

It is our policy to place the highest priority on Health and Safety of all people and also recognise that our colleagues are our most valuable asset. We are committed to the provision of a safe and healthy working environment, which extends to the protection of the public, property and the environment. We take a zero-tolerance attitude to unsafe practices and are committed to the prevention of injury and ill health. Safety is always the first consideration with respect to all our operations.

Our Leadership's commitment to Health and Safety is demonstrated by maintaining an Occupational Health & Safety (OH&S) Management System which meets the requirements of ISO 45001:2018 standard including mental health and fatigue arrangements. Our OH&S management system ensures we take all reasonably practicable steps to ensure the health, safety and welfare of all colleagues, contractors, customers, visitors and the general public from any injury due to our activities while also complying with all statutory requirements, regulations and approved codes of practice dealing with health and safety where applicable to our activities.

We aim for the continued development of a positive safety culture within the workplace (One Standard) to help maintain a safe and healthy working environment for all persons. All workers are encouraged to document and report incidents / near misses and to suggest safer ways of working. These reports will be investigated with the aim of preventing problems occurring and Management will endeavour to eliminate hazards and reduce risks where recognised.

We provide a commitment to consultation and participation of colleagues, colleagues' representatives and contractors by appointing Health and Safety Champions and providing different methods of feedback into our management systems.

To further eliminate hazards and risks we operate an ongoing programme of risk assessments and inspections and will constantly review any findings to determine the adequacy of controls in place to eliminate hazards and reduce OH&S risks. PPE identified in Risk Assessments and Method Statements is issued to all colleagues free of charge with instructions on correct use.

All Management functions will comply with our OH&S policies and procedures. All colleagues should perform their duties properly and in accordance with OH&S policies, procedures, instructions and rules. All individuals working on behalf of the company will be informed of their OH&S obligations and we will provide adequate instruction, training and supervision to enable work to be carried out safely.

This policy is reviewed at intervals not exceeding 12 months and we are committed to the continuous improvement of Health & Safety performance and management. Health & Safety Objectives and targets are set and reviewed at least annually during management review.
